

Distinguish Yourself as a Supply Chain Expert

With the APICS Certified Supply Chain Professional (CSCP) program, you can take your career and organization in a new and exciting direction. Shape your future, align your goals, and distinguish yourself from the competition. In this challenging global marketplace, only the most well-trained, well-educated professionals will be sought after by employers and valued by organizations. Join their ranks today by earning the APICS CSCP designation.

APICS CSCP Program Benefits

- The APICS CSCP certification encompasses the entire global supply chain.
- The APICS CSCP sets the standard for certification. It is administered in 72 countries and preferred by leading companies worldwide.
- Employers and recruiters seek APICS CSCP designees.
- The APICS CSCP increases your professional value and secures your future.
- By earning the APICS CSCP designation, you will demonstrate significant commitment to your profession and your career, distinguish yourself as an industry expert, and excel with your newly acquired specialized knowledge.

Enhanced for 2012

The APICS Certified Supply Chain Professional (CSCP) program is more relevant than ever to the challenges and performance improvement opportunities faced by today's supply chain professionals. The APICS CSCP Learning System modules were restructured with deeper integration of

- best practices in the day-to-day functions of supply chain professionals.
- technologies that drive improvement in planning and operations.

How You Benefit

The APICS CSCP program will give you more credibility and recognition in your workplace. You can distinguish yourself by committing to continued education that will help you sharpen your skills. This program gives you the opportunity to master supply chain management and all its facets—all on the cutting edge of new developments and concepts.

How Your Organization Benefits

From day one, you can apply your APICS CSCP program knowledge to solve everyday work issues. Your knowledge and expertise will make you more valuable in your organization. Companies that sponsor all or part of their employees' tuition will gain a return on investment in the form of long-term loyalty and more productive employees.

With APICS CSCP, your employees will have

- the proven knowledge and organizational skills to strategically streamline operations.
- the tools to effectively manage global supply chain activities that involve suppliers, plants, distributors, and customers located around the world.
- the skills to create consistency and foster collaboration through best practices, common terminology, and corporate-wide communication.
- an understanding of the valuable technologies that drive planning and management of successful operations.

Deltagerne udtaler sig

Carsten Kjær Petersen, Systemansvarlig for ASPECT4 Logistik, EG A/S

CSCP uddannelsen har givet et godt overblik over begreber og generelle processer indenfor SCM. Som systemansvarlig for logistikdelene af ASPECT4 har CSCP givet mig et bredere fundament. ASPECT4 er i forvejen stærk på SCM, men med CSCP kan jeg i højere grad medvirke til at sikre, at fremtidige udvidelser er i tråd med gængse teorier og terminologier. Det medvirker til at smidiggøre brugervirksomhedernes SCM integrationer.

Det intensive uddannelsesforløb er professionelt, og man mærker tydeligt, at det er et velafprøvet koncept. Inddragelse af cases sammen med diskussioner i gruppen er med til at perspektivere teorien. At det afsluttes med en eksamen er for så vidt ikke for mig det vigtigste, men den forberedelse man laver før eksamen gør, at man får sat det teoretiske stof på plads. De web baserede testmuligheder er en stor hjælp i denne forberedelse. Testene gør, at man præcist finder ud af, hvor man har nogle svage sider, og derfor kan målrette sin repetition og til sidst have det forkromede overblik.

Lene Charlotte Kveiborg, Supply Chain Specialist, Dako Denmark A/S

"Gennem APICS CSCP uddannelsen har jeg fået tunet min værktøjskasse til at stille skarpt på de problemstillinger jeg stilles overfor dagligt. Gennem teori og cases blev modeller og metoder til løsning af disse introduceret. Jeg føler mig bedre klædt på til at bringe supply chain tænkning ind i tværfaglige projekter og til at arbejde mere målrettet mod forbedring af forsyningskæden i min virksomhed. Uddannelsen giver en god ballast selv for medarbejdere der har arbejdet med SCM gennem mange år, da teori, begrebsapparat og best practices er under konstant udvikling, og man selv som erfaren medarbejder har glæde af at se forsyningskæden med opdaterede briller."

Susanne Marie Philipsen Dietrich, Global Supply Coordinator, Novozymes A/S

Efter at have gennemført CSCP kursusforløbet har jeg fået et bredt indblik i Supply Chain Management begreber og sammenhænge. Mine nærmeste kollegaer har ligeledes gennemført uddannelsen, og vi taler nu det samme sprog og forstår og tyder begreberne ens.

CSCP kurset indeholder er en god blanding af teori og cases, der viser at teorien kan bruges i det daglige arbejde. Kurset har givet mig inspiration til at lave analyser på flere af vores volatile varer, så vi lagre bedre kan afstemmes i forhold til fluktueren i salget.
